

Cocoa Fudge

$\frac{3}{4}$ cup cocoa

3 cups sugar

$\frac{1}{8}$ teap. Salt.

1 cup evaporated milk

4 tablespoons Karo syrup

3 tablespoons butter

Vanilla (very small amount)

Combine cocoa, sugar + salt

add milk + corn syrup

Then, add butter + cook over low flame
until mixture boils. Stir well.

Then, let it boil slowly until mixture
forms a soft ball in water. add vanilla (^{few} drops)

Beat until thick.

This makes a very smooth +
creamy fudge + will remain so
if kept in a tin box.

This makes a large portion.

Cynthia - I usually do the dishes
while this fudge mixture boils -
for it should boil slowly + takes
too long to just stand + watch it -
- But - you have a dish-washer
- So - play cards or mend some
socks - or something. ☺

And stir just once in awhile.
