Here's what's cookin' Plain Pie Crust Serves double 9-10"

Recipe from the kitchen of Jeanette Sisson

Ann Ashley

2 c. flour
1 tsp. salt
2/3 c. shortening
5 to 7 T. cold watter (6 T.)

Mix flour salt + shortening. Add cold water, usually 6 T. Divide in 2, for lower + upper crust. Roll out each, between two pieces of wax paper. Enough to cover pie dish. Spread out + put in filling. Cove + make design. Cook 425° for 50 min. JKWHS 400°

Double crust is for fruit pie & single for cream pie. With cream pie, bake crust first, (put holes in bottom before baking crust.) Then pour in ingredients. Never put holes in fruit pie or pecan pie. Just on top of it

Bake at 375° for 8-10 min.
