Van. Ice Cream

Satin-smooth ice cream will be yours everytime with this recipe. ~~Pull out your home freezer + let~~ Use freezer.

Yield 1/2 gal.

2 cups milk
1 cup sugar
1/4 tsp. salt
2 cups cream
2 tsp. vanilla

1. Heat milk on electric surface unit until warm using med. high heat. Dissolve sug. & salt in warmed milk
2. Add cream + van., then place in freezer can, being

sure to fill only two-thirds full. Place can in freezer.
3. Freeze, using eight parts ice to one part salt. adding the ice & salt in layers.
4. When frozen, drain off the brine & remove dasher. Plug the hole in the lid & pack with a three part ice to one salt mixture.

Note: Smaller ice crystals are obtained when freezing with agitation such as in an ice cream freezer than when freezing in a refrig. or food freezer. ~~This goods, they to prepare~~ yes, like this recipe makes used, more cream than do cooked or junket recip. The cream, being a richer product, is needed to insure a smooth texture if other aids such as junket, flour, corn starch or eggs are not used.
