Perfect Pie Crust

2 c. flour — 2/3 c. shortening
1 tsp. salt — 2/3 c. cold water (ice)

Sift & measure flour. Then sift flour & salt together once. Cut shortening into flour with edge of knife. Crumble lightly with tips of fingers until the shortening has been broken down into pieces about the size of small marbles. Pour water in slowly, cutting constantly with edge of spoon, adding just enough water to make a stiff dough which will be about 2/3 of a cup. Divide pastry into thirds, & roll one into a thin sheet. Line pie pan, trimming & crimping edges of pastry. Bake at 450° F. until a golden brown. (The remainder of pastry may be stored in refrig. for later use.) * Stir in 1/2 ~~mix~~ shortening until corn meal texture. Then other 1/2 mix

well & then add water. Work log.

* Mom Davis' way.
