Peach Ice Cream

6 eggs
2 1/2 cups sugar
2 large cans evaporated milk
1 qt. peach nectar
juice of 1 lemon
1 qt. whole milk
Crushed ice
2/3 cup salt

Beat eggs until light, slowly add sugar and evaporated milk. Pour into 1-gallon ice cream churn. Stir

(back)

in peach nectar, lemon juice & whole milk. Fasten churn top and operate 2 mins. Before adding ice & salt. Then add crushed ice & salt alternately around churn. It will take from 25 to 40 mins. for Cream to freeze.

Peach Nectar

For each lb. of deadripe peaches (peeled & seeded) use 4 T. sugar & 1 tsp. ascorbic citric mixture. Put into blender and blend to fine mush. Use as sauce or in making ice cream.
